1. Carbon neutral information

1A. Introduction

The National Carbon Offset Standard has spent considerable time establishing a new system for their carbon neutral certification as well as developing new branding. To celebrate, the new Climate Active brand will be launched at the Sydney Opera House on 15 November, 2019. A total of 120 participants and consultants will be in attendance at the breakfast event.

2. Emissions reduction measures

Various initiatives have been implemented to minimize emissions for this event. The primary implementation is that the Climate Active Launch is being held at the Sydney Opera House which is an NCOS certified organisation. Therefore, utilities as well as food and beverage associated with the event will be offset.

As this is an invite only event there is no advertising or material paper use. The primary emissions will be around transport of attendees. Public transport is promoted for guests with train access close to The Sydney Opera House, as well as direct train access from the airport. Flight emissions are however unavoidable. For those travelling some have planned additional meetings for while they are in Sydney to maximise their value while in the city.

3. Emissions summary

| Emission Category | T CO2-e |
|-----------------------------|---------|
| Local transport | 0.4 |
| Ground transport | 3.48 |
| International Flights | |
| Domestic Flights | 10.25 |
| Additional Flights | |
| Food | |
| Water | |
| Food Waste | |
| Waste (optional) | |
| Accommodation | 3.12 |
| Special lighting (optional) | |
| Electricity | |
| Total TCO2e | 17.25 |

^{*} Food, water, waste, and electricity are already offset under the climate active/NCOS certifications for the Sydney Opera House.
