

Australian Government
Carbon Neutral Program
Public Disclosure Summary

THIS DOCUMENT WILL BE MADE PUBLICLY AVAILABLE

Responsible entity name: LIF Pty Ltd

Premises name: 76 Berry St

Address: 76 Berry St, North Sydney NSW 2060

This building has been Certified Carbon Neutral (base building) by NABERS against the Australian Government's National Carbon Offset Standard for Buildings (the Standard) for the period 05/04/2019 to 05/04/2020.

Emissions Reduction Strategy

76 Berry St, North Sydney NSW has achieved a NABERS Energy rating of 6 Stars
(5.5 Stars without GreenPower)

Expires 05/04/2020

Reporting Year Period

12 consecutive months of data used to calculate the NABERS Star rating

01/01/2018
to
31/12/2018

1. Carbon Neutral Information

1A Introduction:

LIF Pty Ltd is the Trustee for the Local Government Property Fund (LGPF) which is managed by Local Government Super (LGS). LGS's mission is to incorporate environmental practices and social considerations into the day to day management of its direct property portfolio to reduce the impact of its operations and enhance the retirement income of its members. LGS aims to continuously improve sustainability performance and play a leadership role in the industry.

1B Emission sources within certification boundary:

Table 1. Emissions Boundary

| | | |
|--|-------------------|-------------------------------------|
| The Building has achieved Carbon Neutral Certification for the | Base Building; or | <input checked="" type="checkbox"/> |
| | Whole Building. | <input type="checkbox"/> |

Table 2. Exclusions

| | |
|---|--|
| The following emission sources have been excluded in line with the provisions of the National Carbon Offset Standard for buildings. The impact of excluding these sources is not expected to materially affect the overall total emissions. | Transport and waste transport |
| | Waste transport emissions are not material. |
| Reasons each excluded emission source has been excluded | Transport emissions are not included due to lack of robust data collection and calculation methods, inclusion is not practicable or technically feasible at this time. |

2. Emissions Summary

| Table 3. Emissions Source – Summary | t CO ₂ –e |
|-------------------------------------|----------------------|
| Scope 1: Refrigerants | 60.6 |
| Scope 1: Natural gas | 52.6 |
| Scope 1: Diesel | 1.5 |
| Scope 2: Electricity | 460.3 |
| Scope 3: Natural gas | 13.1 |
| Scope 3: Diesel | 0.1 |
| Scope 3: Electricity | 66.5 |
| Scope 3: Waste | 97.7 |
| Scope 3: Water and Wastewater | 3.6 |
| Total Gross Emissions | 756 |
| GreenPower or retired LGCs | -526.8 |
| Total Net Emissions | 229 |

3. Carbon Offsets Summary

| Table 4. Offsets retired | | | | |
|---|---------|----------------------|---|--|
| Offset project, unit type & registry | Vintage | Date of Cancellation | Serial Numbers | Offset Quantity (t CO ₂ -e) |
| 15 MW grid connected wind power project by MMTC in Karnataka VCU, APX | 2013 | 04/04/2019 | 6288-294269157-294269385-VCU-034-APX-IN-1-133-01012013-31122013-0 | 229 |
| Total Offset Units cancelled | | | | 229 |
| Net emissions after offsetting | | | | 0 |
| Total offsets banked for use in future years | | | | 0 |

In addition to the above, across its property portfolio LGPF has purchased 1,432 biodiverse carbon offsets from Greenfleet.

Greenfleet is an Australian not-for-profit organisation which plants native trees to restore forests and offset carbon emissions on behalf of its supporters. Since 1997, Greenfleet has planted more than 9.2 million native trees in Australia and New Zealand, restoring approximately 500 biodiverse forests.

As they grow, native forests capture carbon pollution from the atmosphere, reduce salinity and soil erosion, provide vital habitat to native wildlife, conserve biodiversity and generate resilience to climate change in the landscape.

Native animals supported by Greenfleet's forests include Koalas, Brush-tailed Phascogales and the Glossy Black Cockatoo.

The biodiverse offsets purchased by LGPF will contribute to future Greenfleet reforestation projects at locations such as The Meadow, NSW; Witzend, NSW and Nardoo Larwan, VIC.

Additional information about Greenfleet and Greenfleet projects can be found at:
