

National Carbon Offset Standard for Events
Carbon Neutral Program
Pre-Event Public Disclosure Summary

RESPONSIBLE ENTITY NAME: The Walter and Eliza Hall Institute
for Medical Research

EVENT NAME: Molecular Approaches to Malaria Conference
2020

EVENT DATE: 23 to 27th February

EVENT TYPE: Small event

Declaration

To the best of my knowledge, the information provided in this Public Disclosure Summary is true and correct and meets the requirements of the *National Carbon Offset Standard for Events*.

1. Carbon neutral information

This carbon account has been prepared based on the *National Carbon Offset Standard for Events*. As a small event the carbon inventory has been prepared using the standard Event calculator prepared by the National Carbon Offset Standard.

1A. Introduction

Molecular Approaches to Malaria Conference 2020 (MAM2020) is a 5 day event held in Lorne, Victoria where over 400 delegates are expected to attend. MAM2020 will feature leading experts in the field of malaria biology who will discuss strategies to reduce the global burden of malaria.

With a focus on how to minimise our impact on the environmental and understanding the links between the natural environment and health it was deemed appropriate to make our event carbon neutral.

2. Emissions reduction measures

Flights have been identified as a primary emission source due to international and national travel. Unfortunately, as an avoidable emission for the event, offsetting, carbon neutrality was chosen to lighten our impact.

3. Emissions summary

Emission Category	T CO2-e
Local transport	2.86
Ground transport	10.95
International Flights	1,245.18
Domestic Flights	29.42
Food	8.3
Water	0.06
Food Waste	0.0
Waste (optional)	0.72
Accommodation	103.79
Electricity	1.97
Total TCO2e (gross)	1,403.26
Uplift	13.0
Total TCO2e (net)	1,416.26

The uplift includes things like paper, stationery, telecommunications, ad hoc travel in the planning of the event.

4. Eligible offset units

4A. Offsets summary

Offsets have been retired in line with the values of The Walter and Eliza Hall Institute for Medical Institute and the Molecular Approaches to Malaria Conference 2020. These credits focus on Australia to support local communities. In addition, offsets have been retired for projects in India and Brazil, both of these locations were chosen based on being impacted by Malaria.

Table 4. Offsets Summary						
Projects supported by offset purchase	Eligible offset units	Registry	Cancellation date	Serial numbers (including hyperlink to registry transaction record)	Vintage	Quantity
Savana Burning ERF Project ID ERF1-5-45	ACCUs	Clean Energy Regulator	23 rd January 2020	3,772,956,789 – 3,772,957,288	2018-2019	500
Jari/Amapa Redd+ Project	VCU	APX	30 January 2020	https://vcsregistry2.apx.com/myModule/rpt/myrpt.asp?r=206&h=296605361-227846531-227846988-VCU-001-MER-BR-14-1115-15022013-14022014-0	2014	458

Total offsets cancelled						1417

4B. Offset projects (Co-benefits)

Aboriginal Carbon Fund, Savana Burning benefits the local aboriginal communities of Northern Territory by creating jobs and opportunities, enabling them to engage in their indigenous lands and offering effective ways to manage and protect the lands. Furthermore returning to aboriginal knowledge of the land, utilizing their expertise and offering additional means to protect this knowledge for future generations
